EDUCATION

- **Pimpri Chinchwad College of Engineering (PCCOE), Akurdi, Pune** **(2023-2027)**

  Bachelor of Technology in Information Technology **SGPA – 7.8 |CGPA -7.0**

  Selected among Top 100 students for PCCOE Platinum Placement Batch

Technical Skills

- **Programming Languages:-** C, C++, Java, Basics SQL, Python
- **Core Computer Science: -** Data Structure & Algorithms, Object-Oriented Programming, DBMS
- **Web Technologies: -** HTML, CSS, Javascript
- **Tools & Platforms: -** VS Code, Cisco Packet Tracer, Git

Experience

- **WebHub Technology, Pune |** Software Developer Intern
  (October 2025 – December 2025)
  - Worked as a **Software Developer Intern**, contributing to application development and implementation tasks under project guidelines.
  - Assisted in writing, testing, and debugging code while following best coding practices.
  - Collaborated with senior developers to understand system design, workflows, and real-world software development processes.
  - Demonstrated strong problem-solving ability, punctuality, and eagerness to learn during the internship period.

Projects (Development Experience)

- **Eco-Gallery – Indoor Tree Plantation Platform** | *HTML, CSS, Javascript*
  - Led a **4-member team** to design and develop a web platform promoting indoor plant care and sustainability.
  - Built **responsive and interactive UI components**, improving accessibility across devices.
  - Enabled user interaction through content sharing, increasing engagement and usability.
  - Managed sprint planning, task allocation, and ensured **100% on-time delivery** as project lead.

- **Library Management System** | *C, File Handling, Linked lists*
  - Developed a **console-based library management system** using doubly circular linked lists.
  - Implemented core operations such as insert, delete, search, and display with dynamic memory allocation.
  - Added **file persistence** to store and retrieve records across multiple program executions.

- **Advanced Bank Management System |** *C++(OOPS, STL, File Handling)*
  - Designed a banking system using **unordered_map for efficient O(1)** account lookup.
  - Implemented transaction history using stack for undo operations.
  - Optimized account sorting using custom STL comparators.

Achievements & Certifications

- **Certifications : C, C++, DS, JAVA, HTML, CSS,**
  JAVA Full Stack (Pursuing).

- **Smart India Hackathon (SIH) 2025 – Software Edition.**
  - Team Leader: Leading a 6-member team to develop digital mental health support platform
- **Praxis** – Competitive Programming Event (March 2024)**.**
  - Reached final round of a college-level programming competition focused on Problem Solving using C/C++
- **Solved 150+ DSA problems on LeetCode Platform**
